## Fullstack Developer | COBOL Mainframe Developer

I'm a Fullstack Web Developer and Mainframe Cobol Developer with more than ten years of experience in technology providing my services within the banking area.

I am a passionate individual always wanting to learn more about software engineering and computer science. I consider myself a quick learner always setting out challenges to learn different programming concepts and to find a more efficient way of solving problems.

## Experience

Buenos Aires,  
Argentina  
*August 2020 - Present*

### Front-End Web Developer

#### ICBC

I started taking development on frontend tasks in particular on ReactJs for an internal app in the bank for the area of compliance.

Buenos Aires,  
Argentina  
*2018 - Present*

### Fullstack Web Developer

#### Freelance

Development of applications and websites applying the latest technologies on the market. I give complete solutions, front-end and back-end.

Some of the tools and languages used: HTML5, CSS, GitHub, React Js, Node Js, MongoDB, among others.

Buenos Aires,  
Argentina  
*February 2015 - Present*

### Sr Mainframe COBOL Developer

#### ICBC

Area: Anti-Money Laundering  
Impact analysis. Effort's estimation and budget developments. COBOL programming. BATCH & Online (CICS/ALTAMIRA) using VSAM / QSAM files, MQ and DB2. Unit, integral and user tests.

Buenos Aires,  
Argentina  
*February 2014 - January 2015*

### Functional Analyst COBOL

#### ISBAN

Area: Risk management (systems in recovery)  
Review and acceptance of requirements.  
Preparation of technical designs for delivery to a Soft Factory. Acceptance and approval of developments made by them. Attention to productive incidents.

Buenos Aires,  
Argentina  
*October 2012 - February 2014*

### Sr Mainframe COBOL Developer

#### BBVA

Area: Market and Liabilities.  
Functional analysis. Impact analysis.  
Development of COBOL components in TS0/HOST.

Buenos Aires,  
Argentina  
*March 2010 - September 2012*

### Cobol Developer

#### Accenture

Project: IBERDROLA from Spain.  
Development of COBOL components Batch and Cics.  
Use of DB2, MQ, JCLs. Use of CMii 3.
